

## Data Research for a New Process to Wholesale Vehicles

- Would you like an alternative to running vehicles through the Auction?
- How many retail vehicles do you run through the Auction per month?
- How many retail vehicles do you wholesale to others per month?
- Are you on a 60 Turn \_\_\_\_\_ 90 Day Turn \_\_\_\_\_ No Turn \_\_\_\_\_
- How many non-retail (Condition, mileage, year, etc.) vehicles do you wholesale per month?
- Would you like an easy process to retail those vehicles?
- Would you like to locate Retail Vehicles for sale before they go to the Auction from other sources?
- Would you like the process to all be done on-line and just record the sale?
- Would you like to put Retail and wholesale vehicles on a website that provides an on-line auction and Buy Now option?
